

Converge A/V 4 Port VGA over Cat5 UTP Extender

StarTech ID: ST1214T

The Converge A/V VGA over Cat5 video extender allows you to connect up to four remote displays from one source. The video signal is sent to remote monitors over standard Cat5 UTP cable using RJ45 connectors and supports distances of up to 150m / 500ft. The ST1214T requires the ST121R remote receivers or the ST121EXT repeaters to connect to more than 4 displays.

Allow Converge A/V to provide you with digital signage solutions. Applications include airports, bus depots, retail, or any large buildings where video needs to be delivered at long distances.

Applications and Solutions

- > For applications where the display is placed in a convenient viewing area, but the system equipment is placed elsewhere in a
- > Ideal for digital signage applications in financial, educational, and business sectors
- > Ideal for industrial sites with harsh environments
- > Ideal for video conferencing and demo stations

Features

- > Consists of 1 Base unit for the local display, and 1 Remote unit for the remote display (up to 2 monitors can be connected at each location)
- > Extends video cables by up to 500 ft. (150m)

The StarTech.com
